

ARUBA AP-ANT-6 2.4 GHZ DETACHABLE ANTENNA

The AP-ANT-6 is a 135° wide H-plane indoor / outdoor antenna designed for wall-mounted applications where omni-directional coverage is required. Traditional omni-directional antennas, when wall-mounted, can suffer from undue multi-path effect; the AP-ANT-6 significantly reduces this. These antennas are ideal for healthcare, educational, office and industrial campus applications.
